

AREA TEACHERS . . . Back at "school" this week are five area teachers attending the "Business in Action" Summer Picnic Project at the Southern California Gas Co. The teachers being shown underground natural gas storage facility at Playa del Rey by R. M. Schollaren (right) are (from left) Fred Wesson, Elizabeth Crandall, Dorothy Cleary, Hazel Scott, and Muriel Lerner. In the regular course, they are at Anderson Drive Preparatory School, Burroughs, and Whittier Jr. High School, and Banning and San Pedro High Schools.

Reminder Given By Postmaster

A reminder that new postal rates have gone into effect as of Aug. 1 was issued yesterday by Postmaster Clara A. Conner of Torrance.

Postmaster Conner explained that regular first-class letters require 4 cents postage an ounce; air mail letters 7 cents an ounce; air mail postal cards 5 cents each; and regular postal cards 3 cents each.

Where mail users still have on hand supplies of 3 cent stamps, 2 cent postal cards, 4 cent air mail postal cards and 6 cent air mail stamps, they may be used by the addition of an ordinary 1 cent stamp.

Plenty of these are on hand at the local post office, plus large supplies of new 4 cent stamps, 7 cent air mail stamps, 5 cent air mail postal cards and 3 cent regular postal cards.

Stamped envelopes are also in good supply in the needed denominations of 4 cents for regular first-class letters and 7 cent air mail letters.

Violators would be guilty of a misdemeanor and subject to fines not exceeding \$500.

School Bids Due Soon

Anahid Yacoubian, 82, of Hollywood and her passenger, 8, were taken to Harbor General Hospital for treatment of minor injuries Friday morning after the auto carrying the couple veered from the roadway and struck the "Welcome to Torrance" sign of Western Ave. and Torrance Blvd.

Bids will be opened Aug. 8 for the new Lincoln Elementary School, 186th and Arlington Ave., with the contract expected to be awarded at the Aug. 19 board meeting.

All of the bids for the school were rejected last month due to a technicality. The school, which will serve northeast Torrance children, is slated to open late next spring.

New Cat Law Back to City For Adoption

The cat ordinance, which aroused the monkey popularity of the city earlier this year, will be back before the city council Tuesday night. It still has the feature which stirred up the wrath of the chimps and monkeys of Torrance.

The new ordinance, an outgrowth of the public hearings in May which sampled the reaction of Torrance residents to a proposed law requiring licensure of cats, is back without the licensing provision. It does limit the cat population of the city to three animals over the age of 10 weeks at any home or other place except pet stores.

Outlawed by the new law would be any member of a wild order of the cat family and any simian.

It's the simian angle that stirred up the chimps.

Specifically outlawed by the proposed law are lions, tigers, panthers, jaguars, pumas, ocelots, bobcats, lynxes, and cheetahs.

It is hard for the laymen to recognize a quack when he sees one, it says—they often are neat, well-dressed, greet you with warmth.

Annual Circus At Park Today

It's here again. The Torrance Recreation Department's annual circus held at the Torrance Park bandshell will be here today, at 7 p.m. Various concessions will surround the circus area, a few of the booths which will be offered are nail driving, throw the hoop, hang the balloon pitch and win, and bay Sire. Practically everyone wins something so be sure to bring the entire family and try your luck at winning a prize. Several of the booths will sell food and drinks.

A circus variety show will climax the afternoon with 20 new and exciting acts comprising the program. Whether you are 8 or 80 you'll enjoy the clowns, tumbling, dancing and the musical entertainment.

Remember, circus time is Sunday, August 3 at the Torrance Park Bandshell at the corner of Arlington and Santa Fe. Concessions open at 2 p.m.

Children under 12 years old

The registration fee is 50 cents per child; all money collected is used to cover the cost of the diplomas and trophies awarded at the graduation ceremonies on Sept. 13. Parents will be required to register, sign a waiver, and attend all classes with their child.

New Cancer Book Ready

A new pamphlet discussing cancer quacks is now available without charge from the American Cancer Society's district information center at 426 B East Queen St., Inglewood.

This new informative brochure called "I Have a Secret Cure for Cancer" lists a series of six comparisons of the methods used by quack practitioners with those of legitimate medical men.

It states that honest doctors do not offer secret cures and many lives are being lost because misguided, fearful patients go to quacks, wasting precious time and money as well as their lives.

It is hard for the laymen to recognize a quack when he sees one, it says—they often are neat, well-dressed, greet you with warmth.

Dog Training Classes Open

A series of children's dog training classes are under way at Walteria Park. The sessions are being held on Saturday mornings from 9:30 a.m. to 12 noon for seven weeks beginning yesterday and ending Sept. 13. Training will be handled by experienced members of the South Bay Dog Obedience Club of the Torrance Recreation Department. Roy Smith, noted Southland dog trainer, will supervise the leaders.

To be eligible for these classes these conditions should be met: children between the ages of 8 and 14 years old; dogs should be at least 6 months old and no more than 12 years old; the child must provide proper training equipment at an approximate cost of \$3.50; the final eligibility will depend on a combination of the child and dog. For example, an 8-year-old child with a Great Dane or a German Shepherd would not be permitted to participate. A child must be capable of training his pet.

The registration fee is 50 cents per child; all money collected is used to cover the cost of the diplomas and trophies awarded at the graduation ceremonies on Sept. 13. Parents will be required to register, sign a waiver, and attend all classes with their child.

A SPADE'S A SPADE . . . "California's fanciest shovel," symbol of engineering support, is presented to Lieut. Col. William L. Geissert of South Bay's 132nd Armored Engineer Battalion by Lawrence A. Harvey, executive vice president of Harvey Aluminum, industrial sponsor of the local unit. The engraved trophy-shovel will be given by the 132nd to Major Gen. Homer O. Eaton, Jr., commander of Southern California's 46th Armored Division, during summer field training Aug. 10-24 at Camp Roberts, Calif.

Chairman for Drive Named

Mrs. Donald Jodrey of 5222 among young adults. Its victims are consigned to a life-time of progressive paralysis and helplessness because, as yet, the cause and cure of this devastating ailment are still unknown.

However, early diagnosis and medical and therapeutic treatments can control and alleviate some of the crippling symptoms of multiple sclerosis.

Mrs. Jodrey added, "Therefore, the more than 9000 multiple sclerosis patients in Southern California look to the MS chapter here for medical aid and for support of vital research into finding a cure for this insidious crippler."

"I am confident that our community will respond to the MS victims' desperate appeal for assistance," she stated.
